Dear Mr. Martyr:

On a recent occasion, surveillance and enforcement personnel from this office found a substance resembling crankcase oil had apparently been drained or discharged to the ditch from a washing operation on the north side of your building. This office has no way of knowing who might be responsible.

Let me advise you that if this discharge is due to any activities on your part, this constitutes violations of City, State, and Federal laws. The law contains severe penalties for the discharge of oil or petroleum products. This office maintains periodic surveillance throughout the corporate limits of the City, and will watch this area closely. If the discharge described is not due to any activity on your part, you can help significantly by reporting any such activities immediately to this office.

If we can be of any help or can answer any questions, please do not hesitate to call.

Yours truly,

Stephen Short  
Water Pollution Control Inspector II  
Surveillance & Enforcement
